```bash
#!/bin/bash
Hello()
{
        echo "Hello World"
}
Hello
```

```
[mca@localhost ~]$ ./p34.sh
Hello World
```

```bash
#!/bin/bash
Hello()
{
        echo "Hello, $1 $2"
        return 10
}
Hello Welcome MES
ret=$?
echo "Return value is $ret"
```

```
[mca@localhost ~]$ ./p35.sh
Hello, Welcome MES
Return value is 10
```

```bash
#!/bin/bash
add()
{
        j=$1
        k=$2
        (( l=j+k ))
        echo "Sum is $l"
}
add 10 20
```

```
[mca@localhost ~]$ ./p36.sh
Sum is 30
```

```bash
#!/bin/bash
number_one()
{
        echo "This is first function"
        number_two
}
number_two()
{
        echo "This is secound function"
}
number_one
```

```
This is first function
This is secound function
```
